

Shadowlands Wholesale Nursery: Pesticide Sprayer

Company Overview:

Shadowlands Wholesale Nursery is a leading provider of quality plants. We are committed to sustainable practices and the health of our plants and environment. Our team values professionalism, teamwork, and a passion for horticulture. Employees enjoy benefits such as a Provident Fund and Medical Aid.

Key Responsibilities:

- Apply pesticides and fungicides to various plants according to safety and application guidelines.
- Monitor and assess plant health to identify pest infestations and recommend treatment options.
- Maintain accurate records of pesticide applications and adhere to regulatory compliance standards.
- Ensure all equipment is cleaned, maintained, and stored properly after use.

Required Skills and Qualifications:

- Proven experience in pesticide application or a related field.
- Knowledge of pest control techniques and safety practices.
- Strong attention to detail and ability to follow instructions meticulously.
- Excellent communication skills to work effectively with team members.
- Certification in pesticide application or related qualifications preferred.

If you have the requested qualifications, please send your CV and short cover letter to:
